

EVOTM
4 station wireless
valve system

Make any valve wireless!

Does your landscape have broken or lost control wire? Is there a need for additional zones?
Thrive's EVOTM enables you to wirelessly repair or expand your irrigation control system.

THRIVE TRANSMITTER

- 200-yard wireless range through any landscaping obstructions
- Manage up to 4 zone valves from an existing controller
- Products are shipped pre-paired for ease of use and installation
- 3 year warranty on all Thrive products

THRIVE RECEIVER

- Easily mounts to the underside of any valve box lid
- Powered by 2 (qty), 9-volt batteries with a projected life of 1.5 - 2 years
- Built in failsafe to prevent overwatering during connection loss
- Compatible with multi-wire controllers
